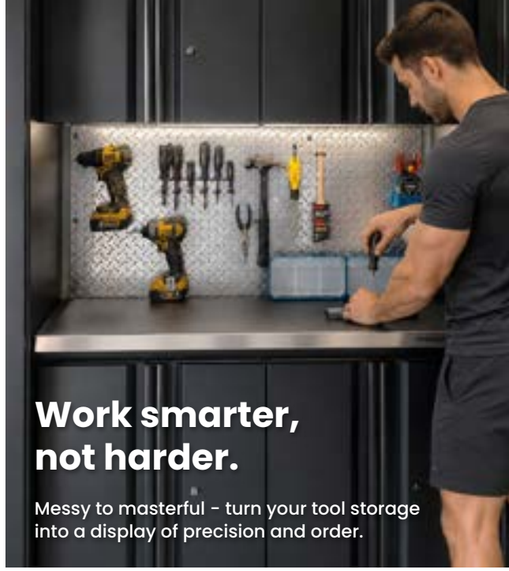
PEGBOARD MX®

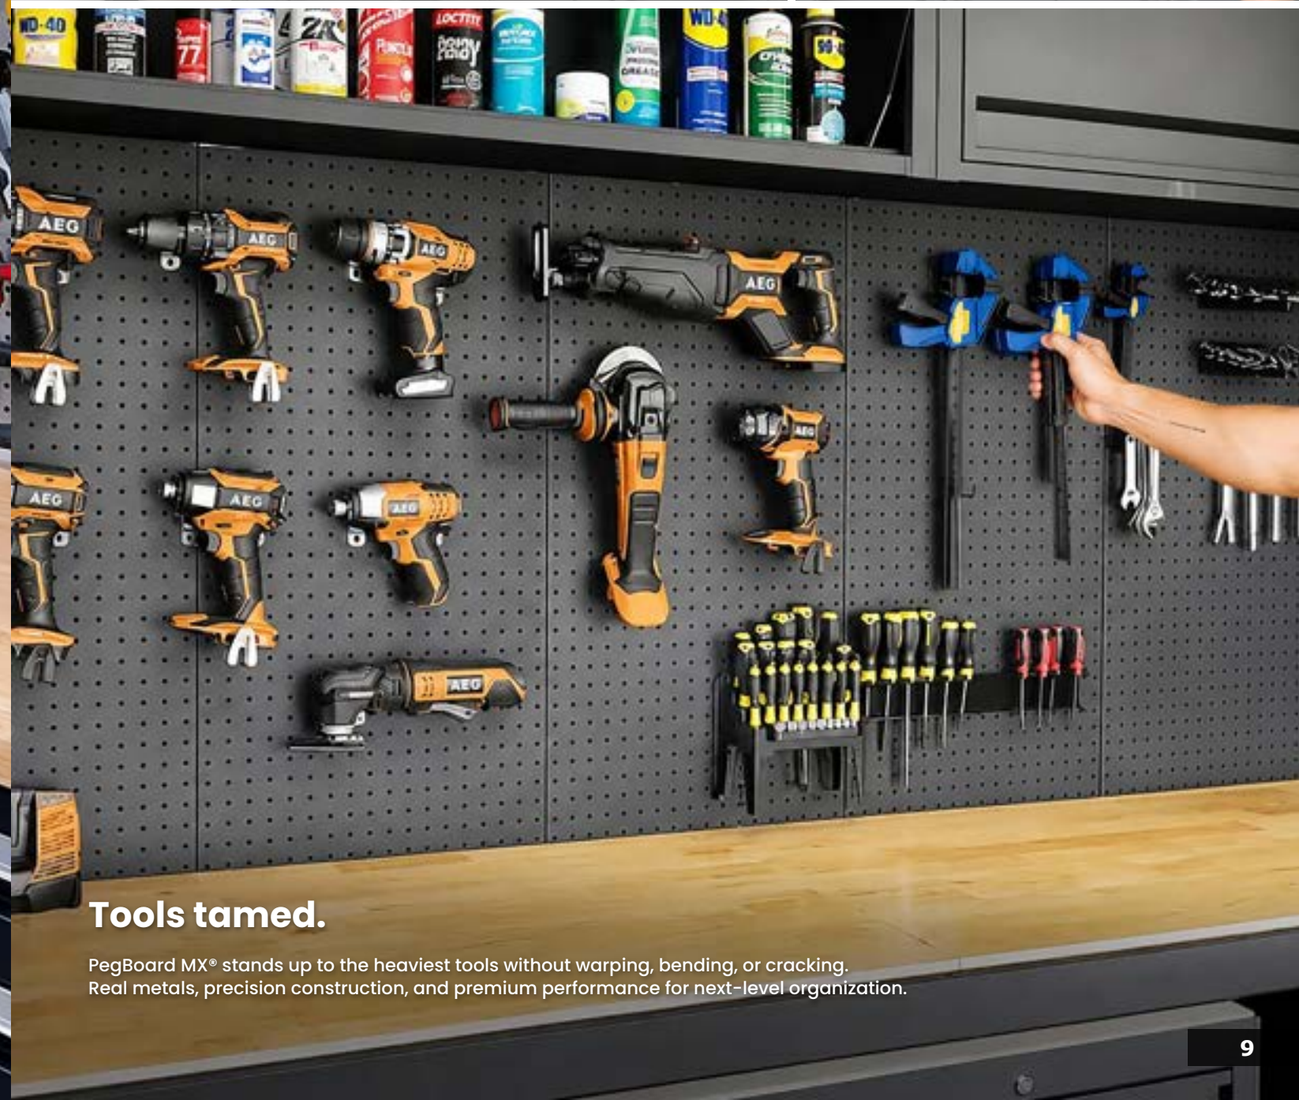
Good work starts here.

From quick fixes to full builds, PegBoard MX® keeps your workspace dialed in - so you can focus on the work, not the mess.



Work smarter, not harder.

Messy to masterful - turn your tool storage into a display of precision and order.



Tools tamed.

PegBoard MX® stands up to the heaviest tools without warping, bending, or cracking.
Real metals, precision construction, and premium performance for next-level organization.

PEGBOARD MX®

The Strongest PegBoard on the Planet®.

PegBoard MX® heavy duty metal pegboard panel holds up to 1 ton. Don't try that with an ordinary wooden pegboard. The PegBoard MX® is built to never rust, rot, corrode, or degrade. The peg holes will stay true for a lifetime. PegBoard MX® panels require no additional framing - just screw into the wall. No maintenance required.

The ultimate workspace includes plenty of pegboards for storing frequently used tools within plain view & easy reach. Pegs can be continually rearranged to meet your changing needs.

DiamondLife® pioneered the original metal pegboard and continues to be the industry leader with more metal pegboard panels manufactured and sold than all competitors combined. No other metal panel is load rated or has back flanges for a completely rigid product.

For industry, factory, office, retail spaces, workshops, garages, kitchens, tradeshows and more. **Looks great, works even better®.**

Advantages

- *Heavy Duty: up to 1 ton maximum capacity with evenly distributed load.*
- *All Metal Construction: with a choice of dozens of metals & colors to choose from.*
- *No Framing Required: all 4 sides flanged 3/4" for rigidity & clearance of peg hooks. No additional framing or spacers required.*
- *More durable & rugged: than traditional pressed wood pegboards. Will not rust, rot, corrode, or degrade.*
- *Fits all standard peg hooks: both 1/8" & 1/4" diameter peg hooks.*
- *Tile multiple panels to make a large panel: if you are considering using a 4'x8' panel, consider tiling multiple 2'x4' panels together instead to gain additional holding capacity: for example, 4 units 2'x4' will hold up to 2 tons (4 x 1/2 ton = 2 tons) & still provide 4'x8' area.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, antifreeze & most household chemicals.*
- *UV Stable & Stain Resistant.*
- *Indoor or Outdoor Use: in any weather.*
- *No Assembly Required: ready to be mounted with hardware sold separately.*
- *We ship within 5 business days!*

Testimonials

"When it comes to finding products for my home and business, I don't make a purchase until I know it's the best. For the organization and storage needs of my fabrication shop, I chose DiamondLife. I used a combination of metal pegboard and slatwall. This combination helped me to get everything I need to use off the floor and neatly arranged only an arm's length away. To top it off, it looks so professional. If you are looking for an aesthetic and functional storage solution for your workspace, make sure to check out diamondLifeGear.com"

- Chip Wade, HGTV™

"I just wanted you to know that I just love the metal pegboard. My wife said she has never seen the garage more organized. Hell, I'd use the stuff as wall paper in the rest of my house but I'm sure I'd be divorced at that point. But the stuff is great, I know I'll be getting more. Thanks for a great product."

- Alan F. of Crownsville, MD

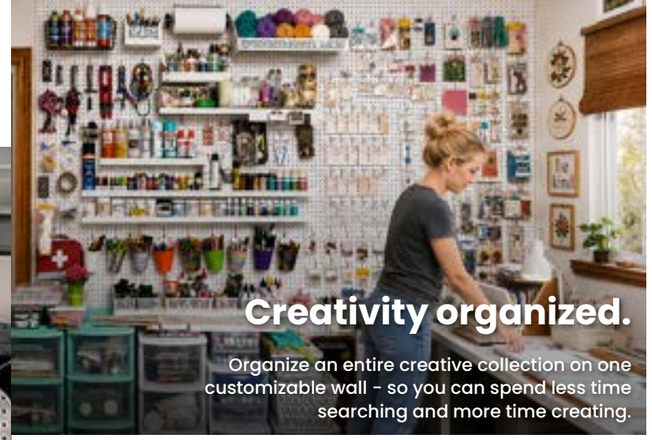
"I am very pleased with the 2x4 metal pegboard I received. I wanted one that wouldn't sag or ripple when tools were hung on it. This is very solid. My rating on it would be a 5/5. I found the shipping charge very reasonable and was amazed at how well the product was packaged. I would recommend this product to anyone that wants a quality pegboard."

- Tom D. of Muskegon, MI

PegBoard MX® also available as FreeStanding units.

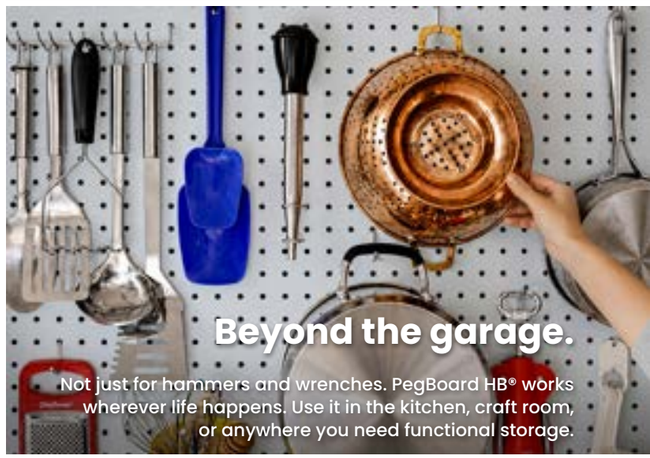
Fits all standard peg hooks.

PegBoard HB® features industry standard 9/32" holes spaced on 1" centers —built to fit both 1/4" and 1/8" peg hooks. That means effortless organization using the hooks and accessories you already own.



Creativity organized.

Organize an entire creative collection on one customizable wall - so you can spend less time searching and more time creating.



Beyond the garage.

Not just for hammers and wrenches. PegBoard HB® works wherever life happens. Use it in the kitchen, craft room, or anywhere you need functional storage.

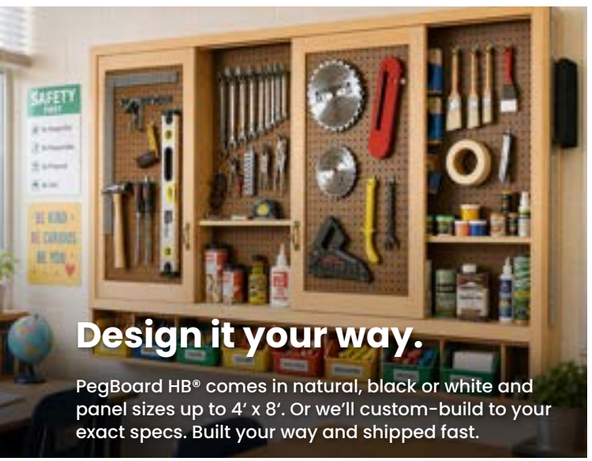
Declutter your workspace.

PegBoard HB® turns unused wall space into practical storage, helping you organize supplies, reduce desk clutter, and maintain a clean, professional office.

PEGBOARD HB®

Cooking within reach.

Create a customizable tool wall that keeps every spoon, whisk, pan, and utensil visible and ready to use.



Design it your way.

PegBoard HB® comes in natural, black or white and panel sizes up to 4' x 8'. Or we'll custom-build to your exact specs. Built your way and shipped fast.

Self-Stick Spacers®

Hardboard PegBoard

PegBoard HB® is a powerful organizational tool. It's crafted from Masonite, the highest grade of tempered hardboard. Available in natural, black, or white. The natural is paint-ready for the color of your choice. Our included Self-Stick Spacers™ make installation easy - just screw into the wall. No maintenance required.

PegBoard HB® is available in an assortment of standard sizes as well as any custom size. 1/4" thick tempered hardboard has standard 9/32" diameter peg hook holes spaced on 1" centers which accommodate most standard hooks and accessories. No workspace is complete without plenty of pegboards.

This versatile product offers plenty of space for storing frequently used tools within plain view and easy reach. Moreover, it is adaptable -- the pegs can be custom arranged and continually rearranged to meet your specific needs.

For industry, factory, office, retail, workshop, garage, kitchen, tradeshows, and more. **Looks great, works even better®.**

Advantages

- *Paintable: roll-on latex paint.*
- *Any Custom Size: made to your size specification.*
- *Tile multiple panels together to make a larger panel: if you are considering using an 8'x4' panel, consider tiling multiple 2'x4' panels together instead to save on shipping costs. For example, 4 units 2'x4' will provide usable 8'x4' area.*
- *No Framing Required: Self-Stick Spacers™ included.*
- *Fits all standard peg hooks: accepts both 1/8" & 1/4" peg hooks.*
- *Easy to Clean: just wipe off.*
- *No Assembly Required: comes ready to be mounted.*
- *Use for Storage, Organization, & Display: looks good, works great.*
- *For Commercial, Institutional, & Residential Use: factories, workshops, garages, retail spaces, restaurants, architectural spaces and more.*
- *Mounting hardware not included.*
- *We ship within 5 business days!*

Testimonials

"You guys rate a 5, no question. I remember being impressed with the email that you sent right after the initial order--a nice heartfelt thanks and a reminder to call with questions if need be...it's nice to remember every so often that we're humans ordering from humans. I also wanted to make a change in my order before it shipped--it was done lickety-split, and my pegboard and attachments arrived within days. The whole process was a pleasant experience, plus the board looks awesome, and does exactly what I want it to do."

- Maili B. Kew of Gardens, NY

"Love your product! Wonderful quality - installation looks beautiful - cured our clutter! Looking to place additional orders with you in the near future. Thank you for great service! PS - I looked at pegboard in the big box stores - nothing compared with your products!"

- Alberto O. of Cedarhurst, NY

"I want to thank you for your prompt and professional service. I would rate your company as five stars. The pegboard was wrapped very well and arrived with no damage. It was hard to find this quality of pegboard anywhere in my area, in 4 x 8 foot sheets, so I was thrilled you offer this product. I have recommended your site to friends interested in similar products."

- Daniel M. of Nicholasville, KY

"We are thrilled with your product and service. The pegboard and hooks we ordered were packaged beautifully, and the product is top notch! Thank you."

- Nina M. of New York, NY

PegBoard HB® also available as FreeStanding units.

Neat by nature.

PegBoard PX® handles the heat, cold, and humidity without cracking or rusting. Made from high-impact thermoplastic, it's the perfect organizer for garages, basements, sheds, or wherever work gets done.

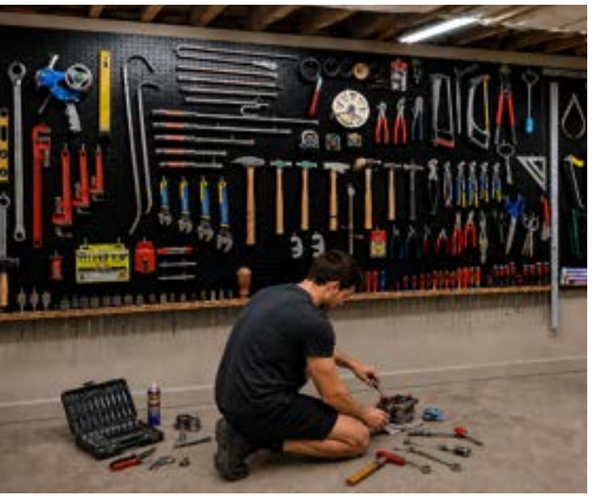
Built your way.

PegBoard PX® comes in black or white and panel sizes up to 4' x 8'. Or we'll custom-build to your exact specs. Built your way and shipped fast.

Tougher than time.

No rust. No rot. No regrets. PegBoard PX® shrugs off moisture, resists impact, and stays strong in places where pressed wood fails.

PegBoard PX®



Plastic PegBoard

PegBoard PX® is a great organizational tool. Crafted from the highest industrial grade of polypropylene plastic, it will never fade, dry out, crack, or peel over time and is completely impervious to water and moisture. Our included Self-Stick Spacers® make installation easy – just screw into the wall and it is ready to go.

Available in an assortment of standard sizes as well as any custom size up to 48”x96”– the PegBoard PX® is great for hospitals, food preparation areas, kids rooms, laundry rooms, bedrooms, bathrooms, play rooms, and more. It’s easy to clean, UVA safe, stain proof, unaffected by chemicals and oils, and great for interior and exterior use. Our 1/4” thick plastic has standard 9/32” diameter peg hook holes spaced on 1” centers allowing any standard hook or accessory to fit. A workspace could not be complete without plenty of pegboards. This versatile tool offers plenty of space for storing frequently used tools within plain view and easy reach. Moreover, it is adaptable – peg hooks and accessories can be custom arranged and continually rearranged to meet your specific needs.

For industry, factory, office, hospitals, restaurants, kitchens, playrooms, and more. **Looks great, works even better®**.

Advantages

- *Heavy Duty: made with true 1/4” thick premium grade polypropylene.*
- *Water & Moisture Resistant: perfect for sanitary environments.*
- *No Framing Required: Self-Stick Spacers included provide clearance for peg hooks.*
- *More durable & rugged than traditional pressed wood pegboards. Will not rust, rot, or degrade.*
- *Fits all standard peg hooks: accepts both 1/8” & 1/4” peg hooks.*
- *Tile multiple panels: for an 8’x4’ panel, tile multiple 4’x4’ panels together instead, & gain additional holding capacity: ie, 2 units 4’x4’ will hold up to 1-1/2 tons (2 x 3/4 ton = 1-1/2 tons) & still provide 8’x4’ area.*
- *Easy to Clean: just wipe off.*
- *Resists oil, grease, petroleum products, antifreeze, most household chemicals.*
- *Indoor or Outdoor Use: in any weather condition.*
- *No Assembly Required: comes ready to be mounted.*
- *Use for Storage, Organization & Display: looks good, works great.*
- *For Commercial, Institutional, & Residential Use: factories, workshops, garages, retail spaces, restaurants, architectural spaces, and more.*
- *Mounting hardware not included.*

Testimonials

“Our team loves our new PegBoard PX® units. We searched all over for a durable, high quality plastic pegboard and settled on DiamondLife. Boy are we glad we did. Last year we had purchased something else from a different company and the units were flimsy and cheap. You get what you pay for. Thank you for your gracious customer service, quick turn around, and super nice product. We will definitely be ordering more!”

- Sarah G. of New York, NY

“The PegBoards are even better than I expected them to be for the price. A truly great value for a practical and professional looking product. I will highly recommend your company and products to friends, family and my business associates. Thank you.”

- Randy J. of Whitehouse Station, NJ

“Received the pegboard and accessories in good order. Installation was easy. Quality was very good. The pegboards were for my wife’s sewing room. Next is the garage. I will order from you again. Thanks.”

- Jeff H. of Panama City, FL

PegBoard PX® also available as FreeStanding units.

PegBoard Strip MX®

See it. Grab it.

Create a visual organization system that makes missing tools immediately noticeable while keeping every tool organized and ready for the next job.

Works Like a PegBoard

PegBoard MX Strips® are great for tight spaces. Measuring only 4" high, they fit just about anywhere. Choose any length you need up to 95". Holds up to 1/2 ton. PegBoard MX Strips® are built with heavy duty metal construction and will never rot or corrode. Available in stunning metals for distinct appearances to use for storage, organization, and display.

For industry, retail spaces, garages, kitchens, and more.
Looks great, works even better®.

Advantages

- *Heavy Duty: up to 1/2 ton maximum capacity with evenly distributed load.*
- *All Metal Construction: Diamond aluminum, brushed aluminum and stainless steel.*
- *Works just like a PegBoard - in a fraction of the space®: only 4" high. Large storage possibilities in very little wall space.*
- *No Framing Required: both sides flanged 3/4" for rigidity & clearance of peg hooks. No additional framing or spacers required.*
- *Versatile Storage: Great for work areas, laundry & even kitchens.*
- *Fits all standard peg hooks: accepts both 1/8" & 1/4" peg hooks.*
- *Easy to Clean: just wipe off.*
- *Resists oil, grease, petroleum products, antifreeze, most household chemicals.*
- *UV Stable & stain resistant.*
- *No Assembly Required: comes ready to be mounted.*
- *Indoor or Outdoor Use: works in any weather.*
- *Use for Storage, Organization, & Display: looks good, works great.*
- *For Commercial, Institutional & Residential Use: factories, workshops, garages, retail spaces, restaurants, architectural spaces, and more.*
- *Mounting hardware not included.*
- *Real Commercial Grade Diamond Plate: not the imitation stamped metal others use.*

Installation

1. Fasten onto wall using peg hook holes for mounting.
2. Locate mounting holes onto structural wall components (i.e. wall studs) wherever possible.

Testimonials

"I have received it and it was exactly as advertised. But what was not as advertised was the customer service that I received. I went on the chat feature of your website and I talked to one of your employees. I was so happy and impressed at how they dealt with me. I needed the product sooner than I anticipated and so I called to check to see when you could get it in the mail. Your staff had it in the mail in less than 2 hours to make it within my timelines. I also received multiple email updates that kept me informed. I cannot be happier with how your customer service and shipping department handled everything. I am much more likely to purchase from you again because of them. Thanks."

- Scott B. of Hillsborough, NC

PEGBOARD FREESTANDING®

Prototype. Present. Persuade.

Ideal for training, product demonstrations, OEM displays, and technical presentations.

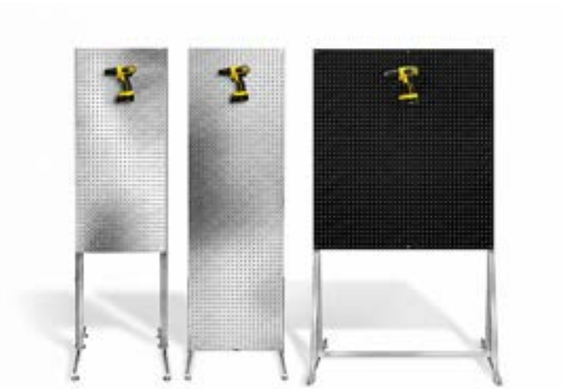
Your display. Your brand.

From logos to product lines, our displays frame your story with strength and style.
Durable enough for the road, sleek enough for the spotlight.

Turn heads. Win sales.

Make your tradeshow booth impossible to ignore.
With endless configuration options, your display stands tall and sells more.

PEGBOARD FREESTANDING®



FreeStanding PegBoard Display for Tradeshow, Retail Display and Tool Storage

PegBoard MX® FreeStanding Display is the next generation pegboard display system. Built with heavy duty metal construction, it will never rust, rot, corrode, or degrade like traditional pegboard. The peg hook holes will stay true for a lifetime. Each display is engineered to assemble and knock down in minutes. Some displays are available with options to break down into very small footprints as small as 24"x36". All displays are made to order within 10 business days and we can also do Rush Orders.

Our PegBoard MX® FreeStanding Displays can be made in an assortment of stunning colors and metals to meet any marketing aesthetic - stainless steel, diamond plate, brushed aluminum, colored aluminums, and colored steels (which also works great for holding magnets). We make dozens of sizes and configurations to suit just about any space. This versatile tool offers plenty of display and merchandising options to show products within plain view and easy reach of your target audience. It also can be used in factories and workshops to store tools within easy reach whenever a wall is not nearby.

DiamondLife® is the undisputed industry leader with more metal pegboard panels manufactured and sold than all competitors combined. We pioneered the original metal pegboard panel and launched the whole industry. No other pegboard looks as good or is load rated. No other pegboard is built better – just look at the back side of any PegBoard MX® – we are the only manufacturer that goes to the extra trouble of putting in back flanges for a completely rigid and finished product you can be proud of. **Looks great, works even better®.**

Advantages

- *Dual-sided: versatile with thousands of peg hook holes.*
- *Easy Assembly: assembles & disassembles in minutes.*
- *Self-Leveling Feet: integral self-levelers for uneven floors, optional casters.*
- *Heavy Duty: aluminum construction is lightweight & supports heavy loads.*
- *Fits all standard peg hooks: accepts both 1/8" & 1/4" peg hooks.*
- *Indoor or Outdoor Use: works in any weather.*
- *Use for Tradeshow Display, Retail, Merchandising or Tool Storage: looks good, works great.*

Testimonials

"I just want to say WOW! The PegBoard FreeStanding we ordered was perfect. We needed it in a hurry, placed the order on Monday and received the display on Good Friday. Currently the unit is holding a Bosch® tankless water heater and a Greenstar® wall hung gas boiler. We have received many compliments on the display from other plumbing and heating contractors. This was the perfect solution to our dilemma. Thanks again for the quick turnaround time and quality product. I would recommend this product to anyone."

- Maili B. Kew of Gardens, NY

"We have had a lot of compliments on this unit. We have been merchandising hand tools on it near our express checkout lines. My store manager loves it! Thanks for a great product."

- Sarah F., Chico's Stores of Los Angeles, CA

"5 stars all the way. Works perfectly in our shop storing all of our tools. The casters make it easy to keep our tools portable so we can move them from work station to work station. I will be buying more for our next line expansion."

- Jonah C., Rolling System of Houston, TX

"You offer a great looking product with a good range of accessories. Your customer service is very responsive & helpful. Our client is thrilled with the look of their booth using your products. We will be ordering additional panels as they will be using a larger booth for future shows."

- Gail T. of Woodbury, MN

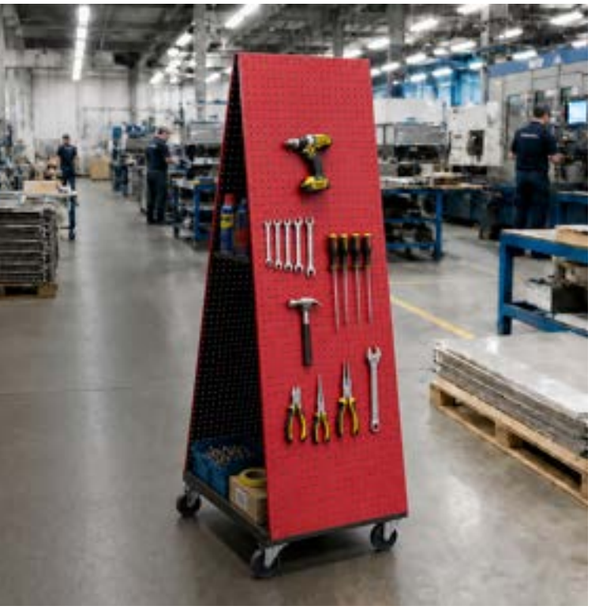
"We had these at our big Trade Show in Orlando. They worked out very well, really helped make our products pop! The owner was quite happy with the displays, though! So that's what counts! Thanks!"

- Drew W. of Carlsbad, CA

"The boards arrived in great shape and I have them assembled. We are going to be using them for tool shadow boards at one of our pieces of equipment. Once we get them all set up I will be glad to send you photos. I had used a number of your boards at my previous employer. Great products at great prices!"

- Ken P. of Hamstead, MD

ToolCart MX®



ToolCart MX®

ToolCart MX® is the best mobile pegboard system available. The rolling A-Frame design is a great tool storage and display system that easily moves to wherever you need it. Heavy Duty 4" diameter rubber wheels ensure smooth movement even over rough factory floors. ToolCart MX® works with all standard peg hooks and accessories. It's available in 2 sizes that deliver up to 44 square feet of mobile pegboard area, and two shelves with integral lips also hold tools and objects conveniently within easy reach. Need a different size than what you see? Contact us and we'll make it for you. **Looks great, works even better®.**

Advantages

- *Rolling A-Frame Design: keeps tools & equipment easily visible & within quick reach.*
- *Heavy-Duty Metal PegBoard: made with our award-winning PegBoard MX® product line.*
- *No Framing Required: all 4 sides flanged 3/4" for rigidity & clearance of peg hooks. No additional framing or spacers required.*
- *Up to 44 square feet of PegBoard surface: for hanging dozens of tools, devices, & equipment needed in your work area.*
- *Heavy Duty Wheels: 4" diameter rubber wheels ensure smooth movement even over rough factory floors.*
- *Some Assembly Required.*
- *All Metal Construction: choice of metals & colors.*
- *Fits all standard peg hooks & accessories: 0.265" diameter peg holes spaced 1" x 1" on centers.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, antifreeze & most household chemicals.*
- *UV Stable & stain resistant.*
- *Indoor or Outdoor Use: any weather condition.*

Testimonials

"Our guys love their new ToolCart. Well-built and came assembled. They started using it in minutes! Thanks for a great product. We'll be ordering 3 more next month."

- Mary Ann K. of Poughkeepsie, NY

"We love our ToolCarts!! It came packaged extremely well and is super useful! Our production foreman loves the fact that it is magnetic too, for hanging production documents. We'll be ordering 4 more soon. Thanks again!"

- Natasha O. of Richmond, MN

"You have been wonderful. Thank you for all the updates and assistance. My guys were using it 15 minutes after it arrived. Loved the fact that it arrived fully assembled and ready to go."

- Patrick H. of Haskins, OH

"Love our ToolCart with your stainless steel pegboard! Great product. Very happy!"

- Jean D. of Providence, RI

"I appreciate you following up. We are very happy with our order, and are in the process of getting everything set up and organized. Thanks!"

- Keith M. of St. Louis, MO

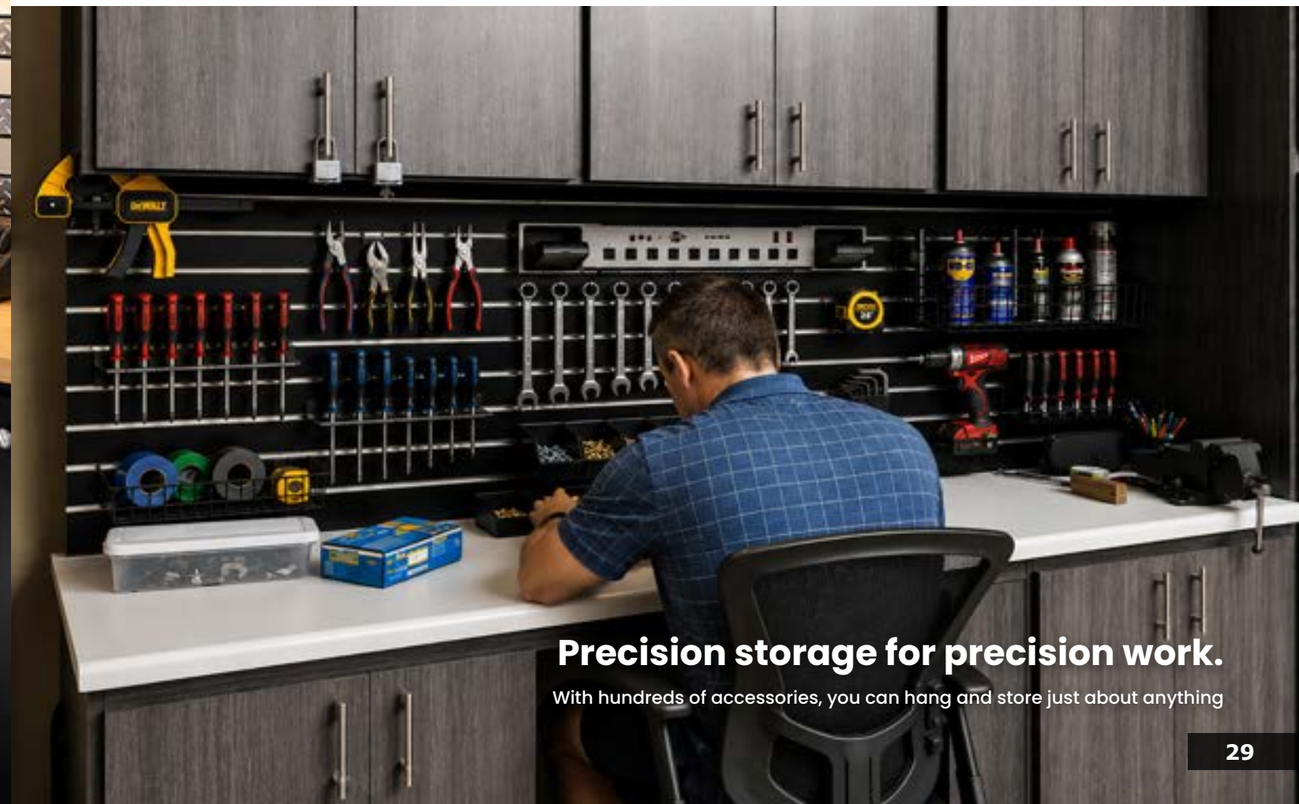
SLATWALL MX

Bold storage for tough jobs.

Keep your tools organized and within reach with a setup that maximizes space and functionality. Strong, sleek, and ready to handle any project.

Workshop envy.

This isn't just a workspace - it's a statement.



Precision storage for precision work.

With hundreds of accessories, you can hang and store just about anything

SLATWALL MX®

The Toughest SlatWall on the Planet.®

SlatWall MX® is the next generation tool for storage, organization, and display. The proven T-Channel design allows free movement of hooks for fine adjustment of horizontal positioning. Hooks simply attach by sliding into any groove from the front of the panel. SlatWall MX® panels are built tough to withstand the extreme heat, cold, and humidity of a rugged work environment.

Compared to other brands, the SlatWall MX® is built with real aluminum fascia that will never rust, rot, corrode, or degrade over time. We use real aluminum diamond plate and brushed aluminum so that nothing looks more powerful or tougher than the SlatWall MX®. Most importantly, SlatWall MX® is designed to industry standard 3" O.C. which makes it compatible with millions of standard hooks and accessories available.

SlatWall MX® Panels are easily attached to wood studs, drywall over wood studs, or masonry. Just screw into wall and the SlatWall MX® is ready to go. No maintenance required. Some models also feature channel strips which slide out for installation and slide back in to cover the screw heads for a sleek appearance.

Use for storage, organization, and display. For commercial, institutional, and residential use. For industry, factory, office, retail, workshop, garage, and kitchen use. **Looks great, works even better®.**

Advantages

- *MDF/Metal Construction.*
- *Fits all standard slat wall hooks & peg hooks.*
- *Tile multiple panels to make a large panel: if you are considering using an 8'x4' panel, consider tiling multiple 4'x4' panels together instead, and gain additional holding capacity: ie, 2 units 4'x4' will hold up to 1-1/2 tons (2 x 3/4 ton = 1-1/2 tons) & still provide 8'x4' area.*
- *Easy to Cut to Size: Use cutting blade designed for sheet metal.*
- *Traditional installation: mount to wall with fasteners thru slat wall channels.*
- *Use for Merchandising Display: looks good, works great.*
- *For Commercial, Institutional & Residential Use: workshops, garages, factories, retail spaces, restaurants, architectural spaces & more.*

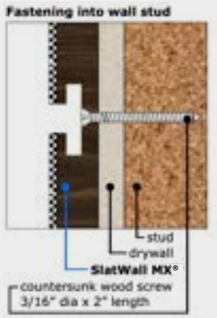
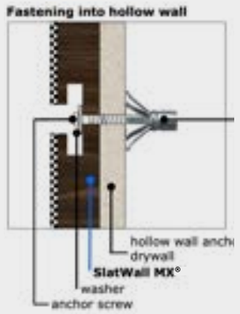
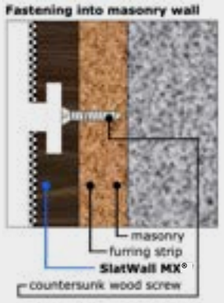
Installation

1. Fasten onto wall using slat wall channels for mounting.
2. Pre-drill holes into SlatWall MX® channels to locate panel onto structural wall components (i.e. wall studs) wherever possible.
3. Use as many wall studs as possible.
4. Pre-drilled holes should be located vertically every 12"-16" (appx every 4th slat).
5. Countersink all pre-drilled holes so screw heads do not protrude into channel. Screw heads protruding into channel may inhibit movement of hooks.
6. Use a level to ensure level horizontal mounting.
7. If mounting multiple panels, mount bottom panel first. Panels have a projecting lip which allows panels to be fitted into one another.
8. Using proper size fastener, screw panel into wall.
9. Do not over tighten screws.







Testimonials

"Everything came as ordered and on time. Installation was easy and it works well. I would rate this whole transaction 5/5 stars. If we need any more slat board we will definitely be ordering from you again. Thanks."

- Anthony L., Brawdy Construction of Clarence Center, NY

"Received my complete order today and wanted to let you know that I am impressed with your product. The SlatWall MX looks great in my garage and exceeded my expectations with regards to quality. I also appreciate the quick responses I have received from your customer service department and the super fast shipping. Thanks again. I certainly will recommend your product to my friends and neighbors."

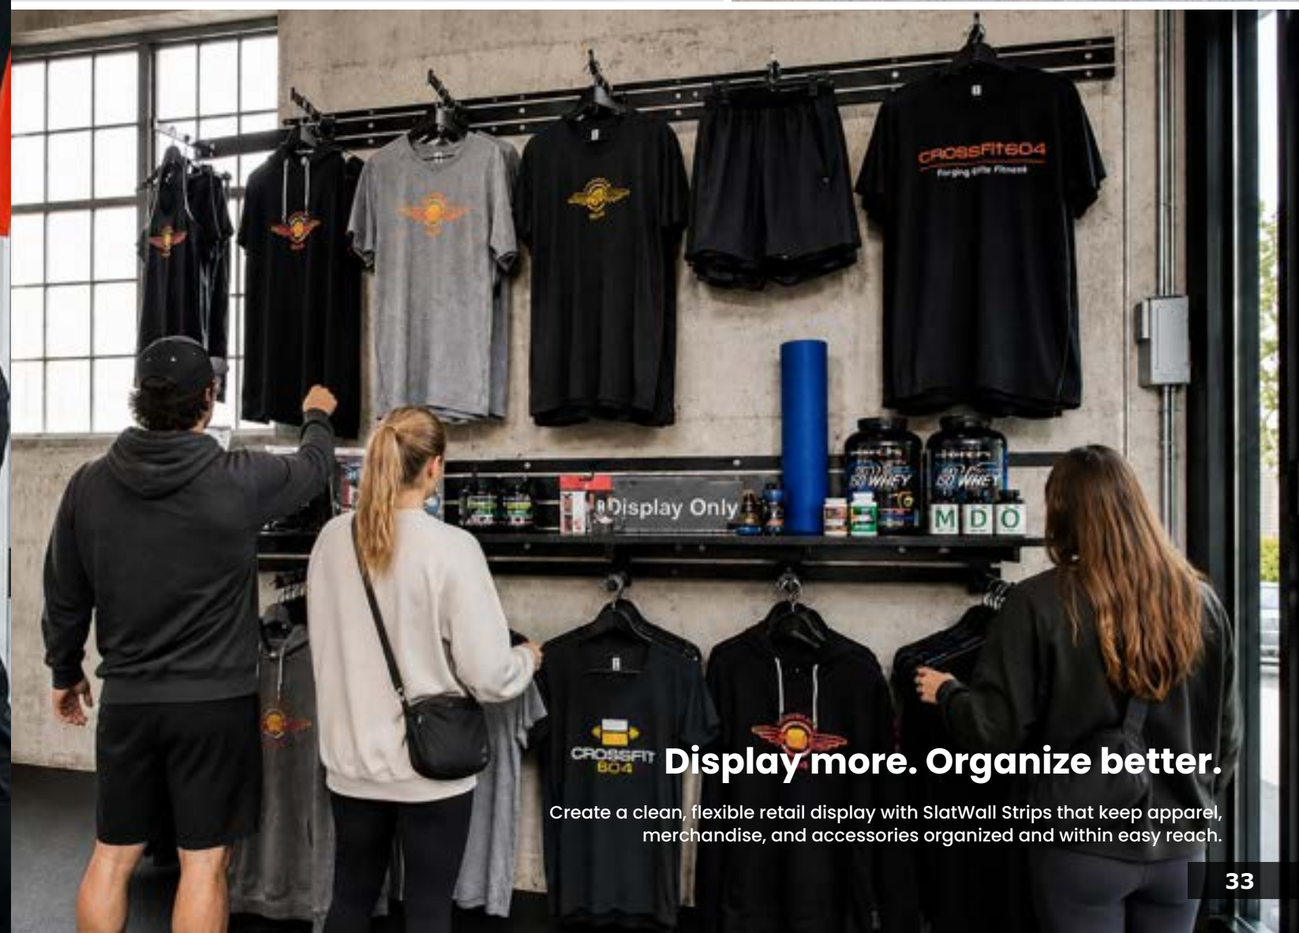
- James A. of Valparaiso, IN

"Everything was great, from the website to the receiving of the slat wall. All companies need to learn from you about packing a product perfect. Keep up that kind of service. Installation was a breeze, 15 minutes tops. The product was great and it's being used in our food pantry and medical clinic hallway to display items."

- Steven A., Faith Community Church of Davis, IL

Gear up. Hang smarter.

Turn your SlatWall into an organized, easy-access display for workwear, safety gear, and everyday essentials.



Display more. Organize better.

Create a clean, flexible retail display with SlatWall Strips that keep apparel, merchandise, and accessories organized and within easy reach.

SlatWall Strip MX®

Works like SlatWall - in a fraction of the space.®

The SlatWall Strip MX® is great for removing clutter and hanging longer items. They work like traditional slatwall, but measuring 6" high they fit just about anywhere. The proven T-Channel design allows for free movement of hooks for fine adjustment of horizontal positioning. Hooks simply attach by sliding into the front T-Channel. SlatWall MX® Strip is built tough to withstand the extreme heat, cold, and humidity of a rugged work environment.

The SlatWall MX® Strip is built with real aluminum fascia that will never rust, rot, corrode, or degrade over time. We use real aluminum diamond plate and brushed aluminum so that nothing is more powerful or tough. The SlatWall MX® Strip is designed to industry standard 3" O.C. which makes it compatible with the millions of standard hooks and accessories available.

The SlatWall MX® Strip can attach to wood studs, drywall over wood studs, or masonry. Just screw into wall and the SlatWall MX® Strip is ready to go. No maintenance required. Heavy Duty Aluminum Channel Reinforcements give the SlatWall Strip MX® the highest load capacity in the industry.

For industry, factory, office, retail spaces, workshop, garages, kitchens, tradeshows, and more.
Looks great, works even better®.

Advantages

- *Heavy Duty*
- *All Metal Fascia*
- *More durable & rugged than traditional pressed wood slat wall. Fascia will not rust, rot, corrode, or degrade.*
- *Fits all standard slat wall hooks & peg hooks constructed to industry standard 3" O.C. design.*
- *Mount multiple strips side by side to make a longer strip: Complete a whole wall or room by mounting units side by side.*
- *Easy to Cut to Length: Use a cutting blade designed for sheet metal.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, antifreeze, & most household chemicals.*
- *UV Stable & Stain Resistant.*
- *Installs like traditional slat wall: mount to wall with fasteners through slat wall channels.*
- *No Assembly Required: comes ready to be mounted.*
- *Use for Storage, Organization, & Display: looks good, works great.*
- *For Commercial, Institutional, & Residential Use: factories, workshops, garages, retail spaces, restaurants, architectural spaces, & more.*
- *Mounting hardware not included.*
- *Real Commercial Grade Diamond Plate, & not the imitation stamped metal that others use.*

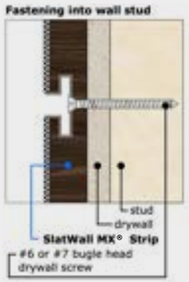
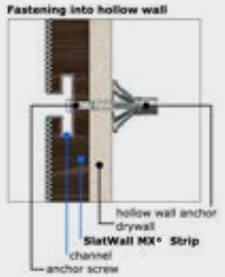
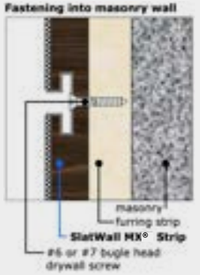
Installation

1. Fasten onto wall using slat wall channels for mounting.
2. Pre-drill holes into SlatWall Strip MX® channels to locate panel onto structural wall components (i.e. wall studs) wherever possible.
3. Use as many wall studs as possible.
4. Countersink all pre-drilled holes so screw heads do not protrude into channel. Screw heads protruding into channel may inhibit movement of hooks.
5. Use a level to ensure level horizontal mounting.
6. Using proper size fastener, screw panel into wall.
7. Do not over tighten screws.







Testimonials

"I have been meaning to let you know how excellent the service was and how happy I am with what I purchased. The SlatWall Strip along with the organizers are such a cool way to get stuff organized. And my wife thinks it looks great too. I plan on ordering more soon, almost every customer has asked about your product on my wall!"

- Gregory P. of Worthington, OH

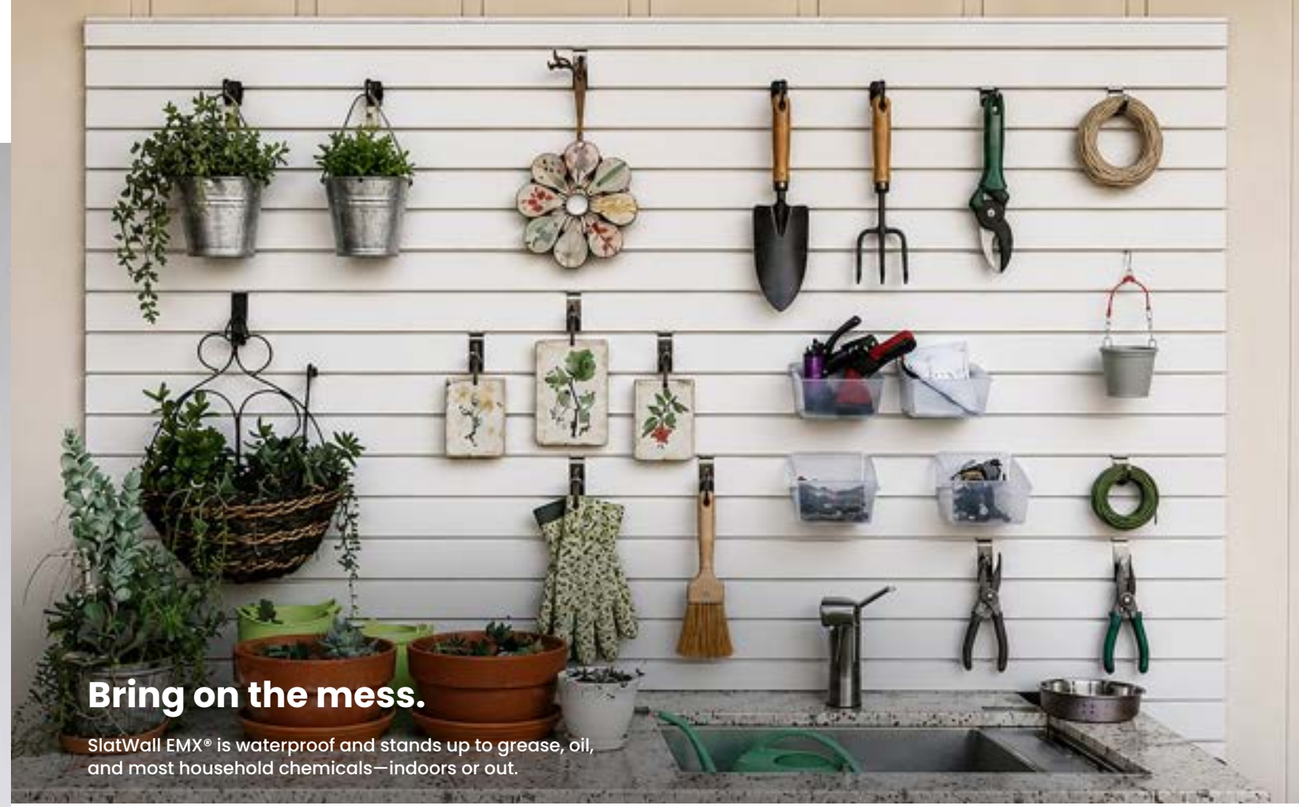
"Very happy with quality of the product...Bought the slat board to hang 6 guitars...your board with its strong medal insert and the six Hercules guitar hangers made for a very strong and secure solution to our storage need...we will be a customer again in the future...Thanks."

- Henry M. of Somerset, MA

SLATWALL EMX®

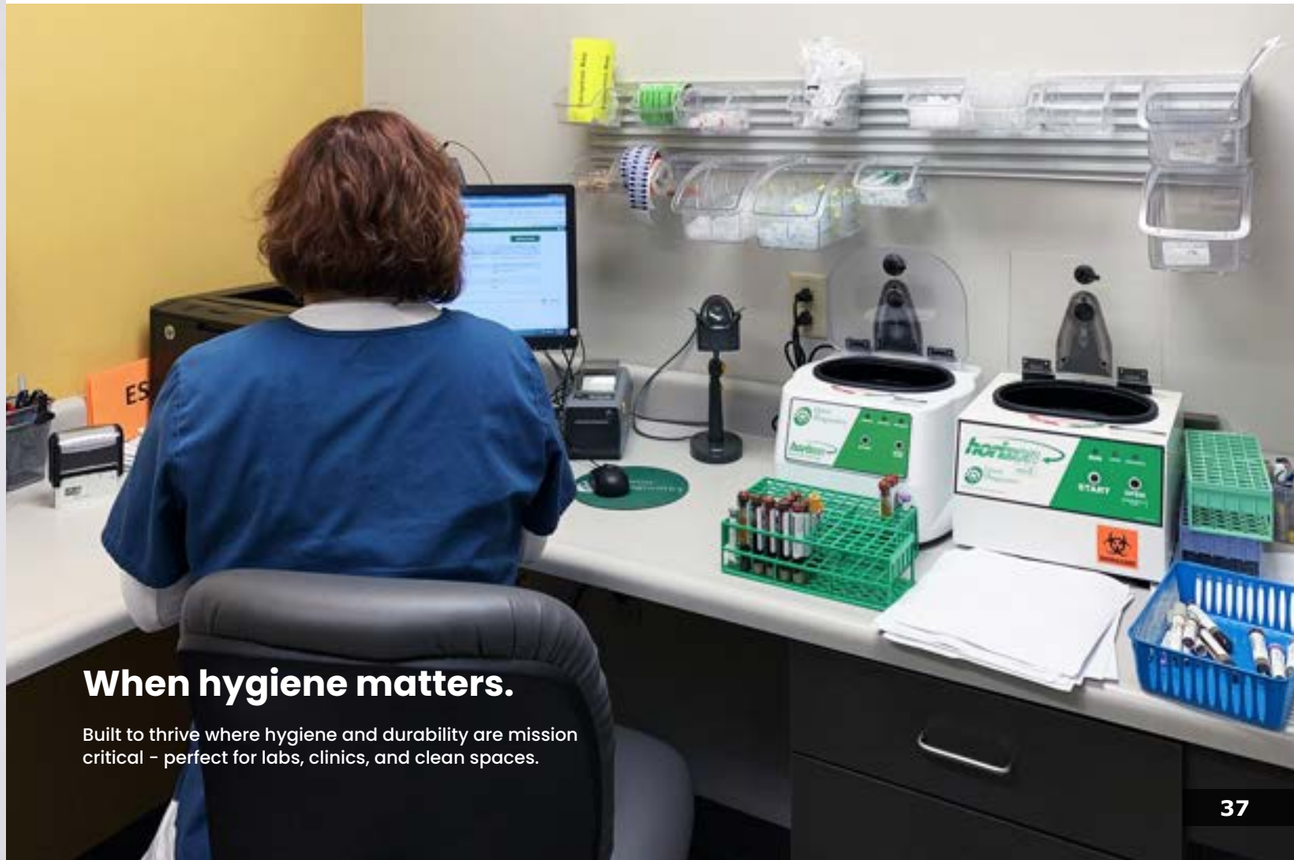
Installs fast. Lasts forever.

SlatWall EMX® mounts directly to studs, drywall, or masonry.
Just screw it in—no fuss, no upkeep, no downtime.



Bring on the mess.

SlatWall EMX® is waterproof and stands up to grease, oil, and most household chemicals—indoors or out.



When hygiene matters.

Built to thrive where hygiene and durability are mission critical - perfect for labs, clinics, and clean spaces.

SLATWALL EMX®

Interlocking Aluminum Slatwall for Workshop, Factory, Retail, and Garage.

SlatWall EMX® is an interlocking all-aluminum slatwall system for storage, organization, and display. The proven T-Channel design allows free movement of hooks for fine adjustment of their horizontal position. Hooks attach simply by sliding into any groove from the front of the panel. SlatWall EMX® panels are 100% aluminum and are built tough to withstand the extreme heat, cold, and humidity of both indoor and outdoor work environments. Load Capacity is 50 lbs point load on a 14″L hook (shorter hooks can hold even higher loads).

SlatWall EMX® is the leading metal slatwall in North America. We start with aircraft grade aluminum billet and extrude it thru steel dies at tremendous pressures to create an interlocking slatwall design. Each modular section is 6″ high and is available in either 48″ or 95″ lengths. Simply stack sections on top of one another to create your slatwall. You can cut SlatWall EMX® down to any length to fit your wall. Panels are easily attached to wood studs, drywall, or masonry. Just screw onto your wall and the SlatWall EMX® is ready to go. No maintenance required.

SlatWall EMX® is a versatile storage and display system. With many hooks and accessories, you can store, organize, and display just about anything. Moreover, it is adaptable -- the hooks can be custom arranged and continually rearranged to meet your specific needs. The 3″OC slat spacing ensures that most hooks and accessories around the world will fit perfectly. 3″ slat spacing is standard. 1″, 1.5″ and 2″ slat spacing are available upon special request. Standard finish is clear anodized for a durable finish that resists scratching and finger prints. Black, beige, and white powder coated colors are available by special order. Mill finish is also available if you would like to paint it yourself.

Use for storage, organization, and display. For commercial, institutional, and residential use. For industry, factory, office, retail spaces, workshops, garages, kitchens, tradeshows, and more.
Looks great, works even better®.

Advantages

- *Aluminum SlatWall EMX® holds up to 50 lbs point load on a 14″ hook.*
- *Lightweight: 50% lighter - only 1.5 lbs per square foot compared to 3.0 lbs per square foot for traditional MDF slatwall.*
- *Works with all standard slatwall hooks & accessories. 3″ on center spacing like traditional slatwall (1″, 1.5″, 2″ spacing by special order).*
- *Modular to cover any size & shape wall area.*
- *Create any slat wall height: in 6″ increments.*
- *Create any slat wall width: by cutting sections to any width.*
- *Slat wall can be cut using a power saw along with a blade designed to cut sheet metal.*
- *Load capacity: 50lbs on 14″L hook.*
- *Clear anodized finish: mill finish & powder coated colors available by special order.*
- *For indoor & outdoor use: easy installation – just screw onto wall.*

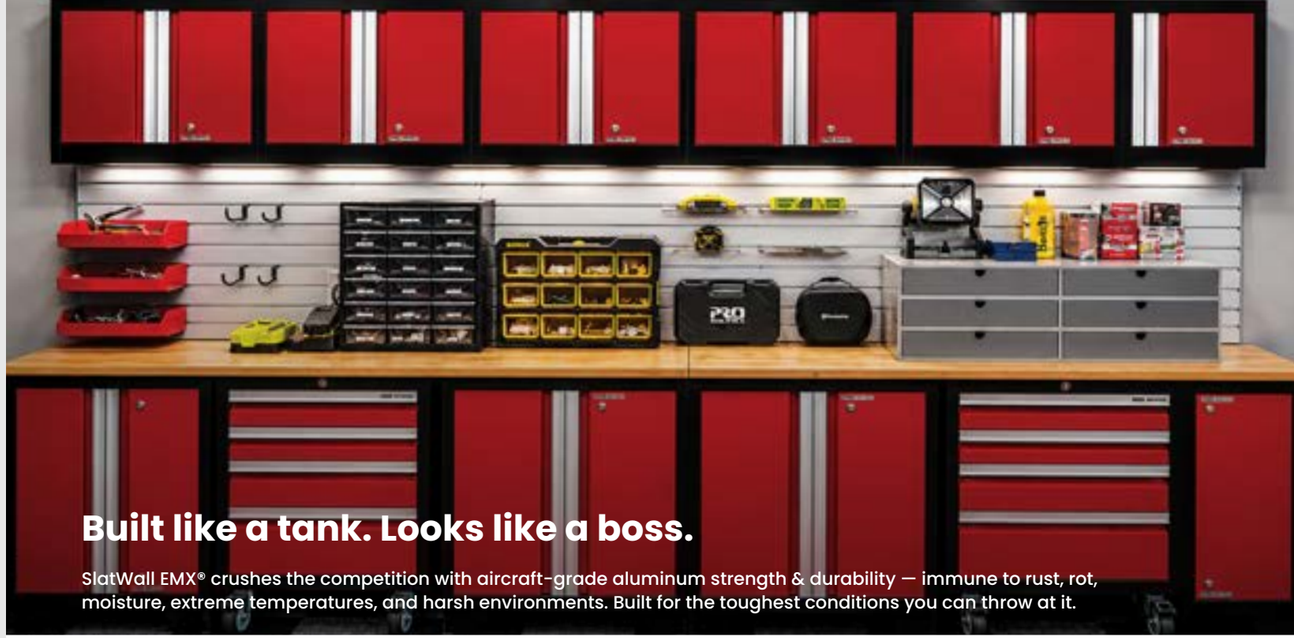
Testimonials

"I really enjoyed the entire process - from talking about my project with the knowledgeable sales staff, to ordering, to receiving my very well packed shipment, to installing and using the product. It is an awesome system, looks so great and is strong as all heck. Thank you for everything and you count me as a DiamondLife customer for life!"

- Jacob M. of Chicago, IL

"All came in perfect condition! Best packing of merchandise I've ever seen/received!"

- Russel F. of Beverly Hills, CA



Built like a tank. Looks like a boss.

SlatWall EMX® crushes the competition with aircraft-grade aluminum strength & durability — immune to rust, rot, moisture, extreme temperatures, and harsh environments. Built for the toughest conditions you can throw at it.

Built to organize.

SlatWall EMX® is a modular interlocking all-aluminum system crafted for serious storage, display, and organization. Made from aluminum billet and precision-extruded for unbeatable strength and style.

SLATWALL FREESTANDING®

Built to demonstrate.

Create a rugged, professional showcase that keeps your products visible, accessible, and ready for hands-on demonstrations.

Put every pair forward.

Designed for easy shipping and installation. Ships knocked down on a pallet or in an optional wooden crate. Each 8'x4' section weighs just 95 lbs.

SlatWall FreeStanding®

Freestanding Slatwall Display for Tradeshows and Retail Merchandising

SlatWall FreeStanding® Display is a beautiful and functional display system perfect for tradeshows and retail merchandising. The proven T-Channel design allows free movement of hooks for fine adjustment of horizontal positioning. Hooks simply attach by sliding into any T-Channel from the front of the panel. Each display is engineered to assemble and knock down in minutes. Some displays are available with options to break down into very small footprints as small as 24"x36". All displays are made to order within 10 business days. We can also do Rush Orders.

Our SlatWall FreeStanding Displays can be made in an assortment of colors, finishes, and metals to meet any marketing aesthetic, such as maple, white, black, or cherry. You can also upgrade to metal fascias such as brushed aluminum or diamond plate. We make dozens of sizes and configurations to suit just about any space. Our new Continuous-Wall Style is self-supporting and allows for long walls of continuous SlatWall, perfect for trade show backdrops. This versatile tool offers plenty of display and merchandising options to show products within plain view and easy reach of your target audience.

SlatWall FreeStanding is designed to industry standard 3" O.C. which makes it compatible with millions of standard hooks and accessories available worldwide. With so many compatible hooks and accessories, you can store, organize, and display just about anything. Moreover, it is adaptable -- the hooks can be custom arranged and continually rearranged to meet your specific needs. All in all, the SlatWall FreeStanding is a potent and eye-catching display system.
Looks great, works even better®.

Advantages

- *Dual-sided: versatile with thousands of hooks and accessories.*
- *Easy Assembly: assembles & disassembles in minutes.*
- *Self-Leveling Feet: integral self-levelers for uneven floors, optional casters.*
- *Heavy Duty: supports heavy loads.*
- *Fits all standard slat wall hooks & accessories constructed to industry standard 3" O.C. slat spacing.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, antifreeze, & most household chemicals.*
- *UV Stable & stain resistant.*

Design Your Own

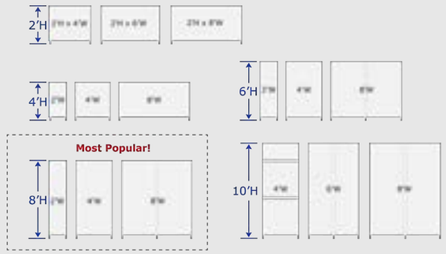
Grooves

On-the-Ground Sizes

The On-the-Ground type of SlatWall display is comprised of SlatWall panels assembled with (2) Side Rails and the display width is limited to 8'W. The SlatWall starts approximately 2-1/2" from the ground. The Side Rails are vertical pieces on the left and right side of the display and act as the spine to hold the assembled display together. The Side Rails are typically Aluminum Angle 1-3/4"x1-3/4". Other structural members may be present depending on the exact configuration of the display, including Back Braces, Cross Bars, etc. The assembled display stands on (2) feet which stick out 12" in the front and 12" in the back. The Feet come standard with Self-Levelers. Casters (wheels) are optional and bolt in-place of the Self-Levelers. This style of display can be assembled and disassembled over and over again. The amount of people required for assembly depends on the size of the display. Smaller displays can be handled by one person.

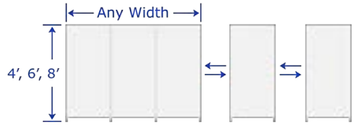


Off-the-Ground Sizes

The Off-the-Ground type of SlatWall display is comprised of SlatWall panels assembled with (2) Side Rails and the display width is limited to 8'W. The SlatWall starts appx 24" from the ground. The Side Rails are vertical pieces on the left and right side of the display and act as the spine to hold the assembled display together. The Side Rails are typically Aluminum Angle 1-3/4"x1-3/4". Other structural members may be present depending on the exact configuration of the display including Back Braces, Cross Bars, etc. The assembled display stands on (2) feet which stick out 12" in the front and 12" in the back. The Feet come standard with Self-Levelers. Casters (wheels) are optional and bolt in-place of the Self-Levelers. This style of display can be assembled and disassembled over and over again. The amount of people required for assembly depends on the size of the display. Smaller displays can be handled by one person.

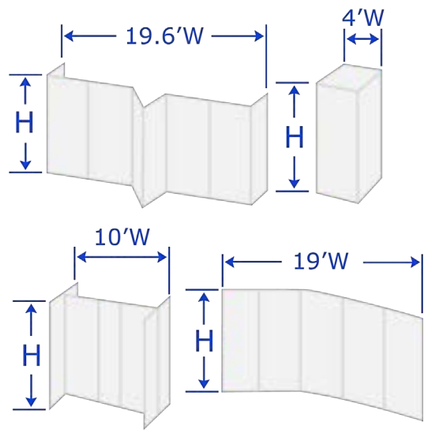
Continuous-Wall

Multiple SlatWall panels can be connected side-by-side to create a continuous wall using our patent pending modular system. Any length wall can be achieved in this manner, especially long continuous backdrops useful for trade shows. Adjacent SlatWalls are connected together with our innovative braces. At each connection point between adjacent SlatWalls, the feet stick out 3" in the front and 12" in the back, thereby eliminating any tripping hazard. The left most edge and the right most edge of the assembled continuous wall have feet that stick out 12" in the front and 12" in the back. The display can be assembled and disassembled over and over again. Each bracing section ships assembled and never needs to be disassembled. 5 bolts generally attach the bracing to the sides of each SlatWall. Wing nuts tighten the bolts, thereby eliminating the need for any tools. 2 persons minimum are generally needed for assembly due to the size and weight of individual SlatWall panels. For example, a 4'x8' panel can weigh 100 lbs.



Shape-Wall

Adjacent SlatWalls are connected together with our innovative aluminum connectors that don't have any "feet" protruding out front or in the back. The shape of the wall incorporates "returns" to make it self-standing. The display can be assembled and disassembled over and over again. Each connector ships assembled onto its SlatWall and never needs to be removed.
5 bolts generally attach the connector to the edge of each SlatWall. Wing nuts tighten the bolts, thereby eliminating the need for any tools. 2 persons minimum are generally needed for assembly due to the size and weight of individual SlatWall panels. For example, a 4'x8' SlatWall panel can weigh 100 lbs.



Testimonials

"Glad we found you. We researched around a lot and you definitely have the largest selection and the most customizable display options. And it was nice to know we were ordering directly from the factory without any middle man. The slatwall displays worked great and were just what we needed to display our line of home accessories. Thanks."

- Morgan H. of Los Angeles, CA

"The display turned out absolutely AMAZING. Thank you for your hard work. The display you made was really the gem of our tradeshow booth in Hannover! Again great work, please thank your crew for making this happen on a tight timeline too."

- Ari S. of Huntington Beach, CA

"Everything went really well and we were really pleased with the service. Great delivery, nothing broken, all went together well and we are up and running. The displays will allow us to make great use of dead space on both sides and to show much more merchandise. Thanks to you and the rest of your staff for a job well done. Look forward to doing more business in the future."

- Linda H. of Oxnard, CA

Ready to rock.

When inspiration strikes, your guitars are perfectly lined up and ready to play. The hardest part? Deciding which one to grab first.

For guitars too beautiful to hide.

Show off every flame top while keeping your collection protected and ready to play.

GUITAR HANGER MX®

Multiple Guitar Hanging System

Guitar Hanger MX® is a heavy duty wall mounted system for holding guitars. It helps to clear up floor space and neatly display guitars within easy reach. The system is composed of 2 parts: the SlatWall Strip and the Hanger. The Strips can come in either 4’ or 8’ lengths and mount to any wall.

The sleek high performance finishes and colors show off your prized axes in style. Hangers simply attach onto the Strip from any direction and are easily removable and repositionable, plus the head rotates 180° for hanging guitars straight or at an angle. The slatwall inspired system has the added benefit of allowing free horizontal movements of the hangers.

Our Hangers are made with welded steel, then powder coated with an added soft foam cushion to protect delicate finishes around the guitar neck. Locking strap secures your guitar safely. If you have multiple guitars, this is the best way to get your guitars off the floor and up on the wall. **Looks great, works even better®.**

Hanger Styles

- *Hangers move freely horizontally & are easily removable.*
- *Head rotates 180° to hang guitars straight or at an angle.*
- *Head position lockable, foam cushion protects finish around guitar neck.*
- *Tough powder-coated welded steel construction.*

Testimonials

“During the process of building my own studio, The Hideout Recording Studio (www.hideoutlv.com), my wiring installer, Zack Fagan from Under the Wire (www.underthewire.tv), suggested I look at DiamondLife gear to clean up and organize my guitar tech room. After checking the DiamondLife products out online, I immediately put my order in. The DiamondLife guitar hanger not only allows me to solidly hang many guitars on the wall in a small area, it also really looks fantastic and matches the decor in my studio. I would suggest all DiamondLife products for anyone who values functionality, quality and aesthetics.”

- Kevin Churko, Producer for Ozzy Osbourne

“Love the guitar rack from DiamondLife. Installation was easier than I thought and it looks great in my Guitar room aka man cave. Thank you.”

- Randle L. of Carrollton, TX

“I purchased your Guitar Hanging system to store our guitars for our Fine Arts Department at our middle school and senior high school. This system solves the problem of taking valuable floor space to store the guitars and it looks great in the rooms! I especially appreciate how your sales/customer service department goes the extra mile to communicate to me if an item has been delayed due to longer than expected back order, etc. Thank you and keep up the great service!”

- Deb B. of Pleasant Hill, IA

“I wanted to write and let you all know how pleased I am with your product as well the communication I received. They came perfectly intact, no scratches or dents and great instructions. I have two strips and they are both filled with guitars and look amazing!!! Everyone that sees my music room/studio is jealous. It was a great way for me to be original and have that studio / guitar store feel. Not to mention getting all those guitars off of my floor! I am very pleased with my order and thank you all from the bottom of my heart. Again, great product and wonderful communication, not to mention that they look great!”

- Andrew O. of Tigard, OR

“Great product. Great service. Reasonable prices. Shipping is a little expensive but understandable given how far it had to be shipped. This was my second order, so needless to say, I’m a fan. Absolutely the most seamless purchase I have ever made on the internet. I Googled guitar hangers, yours was the first ad that popped up, it was EXACTLY what I was looking for. The whole process took less than 5 minutes and I couldn’t be happier with the product. You will definitely be hearing from me again.”

- Jack R., Woodrock Music Canada of Gabriola Island, BC

Made for magic.

A magnetic display board made for kids who collect memories, treasures, and a little everyday magic.

Write wipe repeat.

Stay on top of your schedule—jot down tasks, brainstorm ideas, and keep your week in view without the mess of paper. MagBoard® strongly attracts magnets and works with both wet-erase and dry-erase markers.

From inspiration to execution.

The best ideas deserve more than a sticky note.

MAGBOARD®

MagBoard® is Better than Cork

Our MagBoard® is a whole lot better than cork board. The beautiful metal surface attracts any magnet. There are no sharp pins or tacks to get pricked by so it's great for kid's rooms, and no poking holes into documents. Instead of ruining a beloved artwork or an important Sales Chart with thumb tack holes, magnets are the perfect solution to leaving your documents untouched. MagBoard® is crafted from real commercial grade metals. Use our Galvanized Steel or Brushed Stainless Steel as a great modern & sleek accent to any contemporary space or a color to add warmth to any room. Mounting screws included. Perfect for the kitchen, office,kid's room, and more. **Looks great, works even better®.**

Accessories

Screw Caps
Covers screw with matching color cap. Snaps into place.

Wet-Erase Markers
[Pack of 6]
Works with all MagPanels. Markers are less visible on darker MagPanel colors.

Thumbtack Magnet
[Pack of 5]
For general purpose hanging. 1 magnet will hold up to 8 sheets of paper equivalent to 1.3 oz of weight.

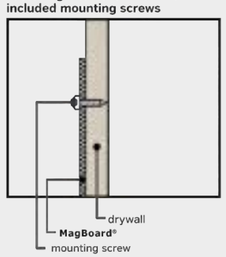
Magnet Hook
[Pack of 2]
Nickel plated. 1 magnet will hang up to 100 sheets of paper equivalent to 16 oz of weight.

Installation

1. Remove protective plastic film from product surface.
2. Fasten onto drywall using screws included. Using a screwdriver, install screw through the pre-drilled mounting holes into your drywall. If you have Screw Caps, put them onto the screws prior to mounting. You do not need to hit studs nor use wall anchors.
3. For mounting onto other wall types such as masonry, etc. use appropriate fasteners/ anchors sold elsewhere.

Easy Mounting

Fastening into hollow wall with included mounting screws



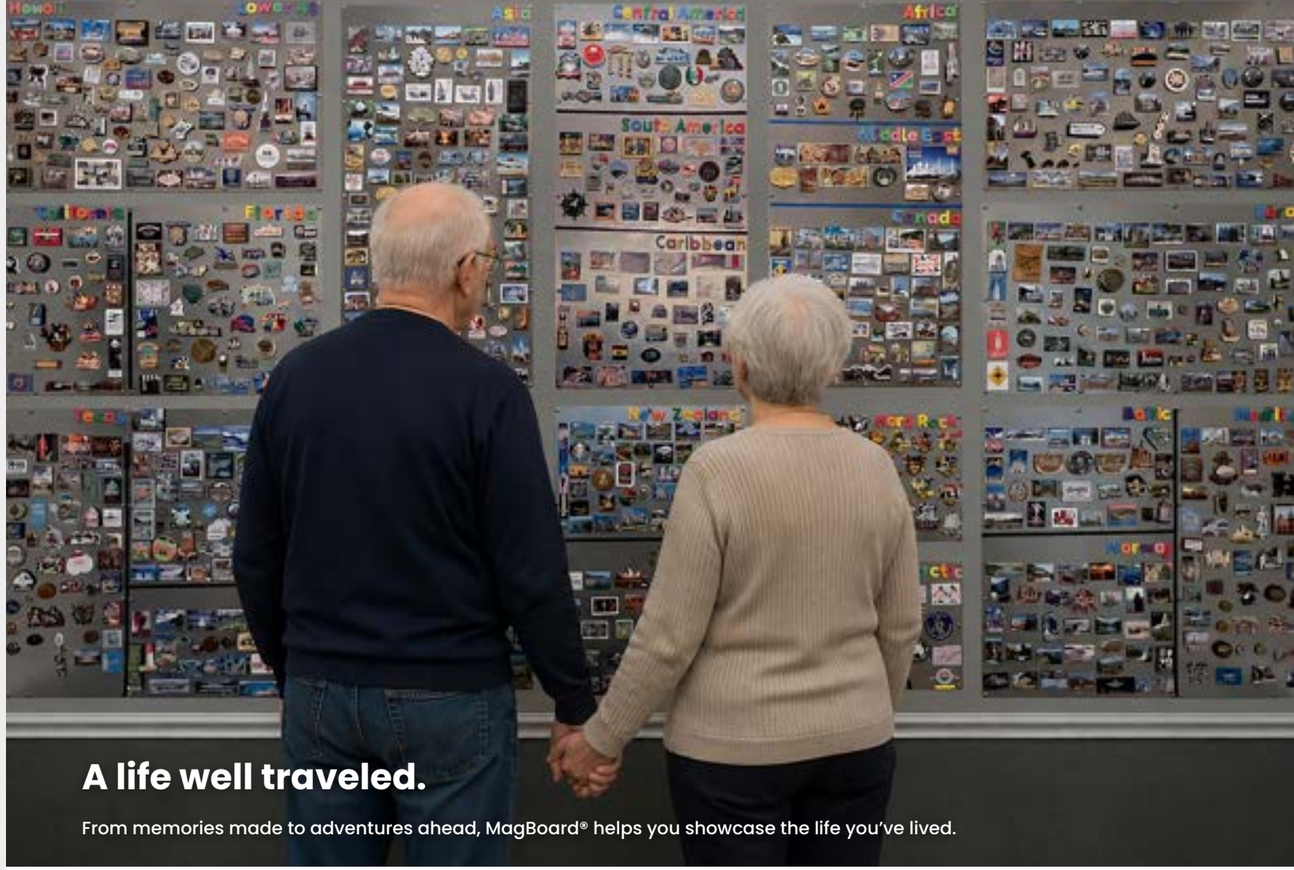
Testimonials

"I am very happy with the product. I purchased it for my 19 month olds playroom. We got a ton of magnets to help her learn. She loves it. We also write on it with wet erase markers. We used 3M Command Strips™ to put it on the wall because I'm addicted to those things and its holding up just right! I would definitely recommend these to my friends. It has made her playroom complete and so fun. You have no idea how much I searched for a magnet board. I could not find what I wanted and I'm so glad I came across your site. I was nervous at first but overall happy with the purchase and the fact I could custom size it! Thanks so much!!"

- Beth H. of Lamar, OH

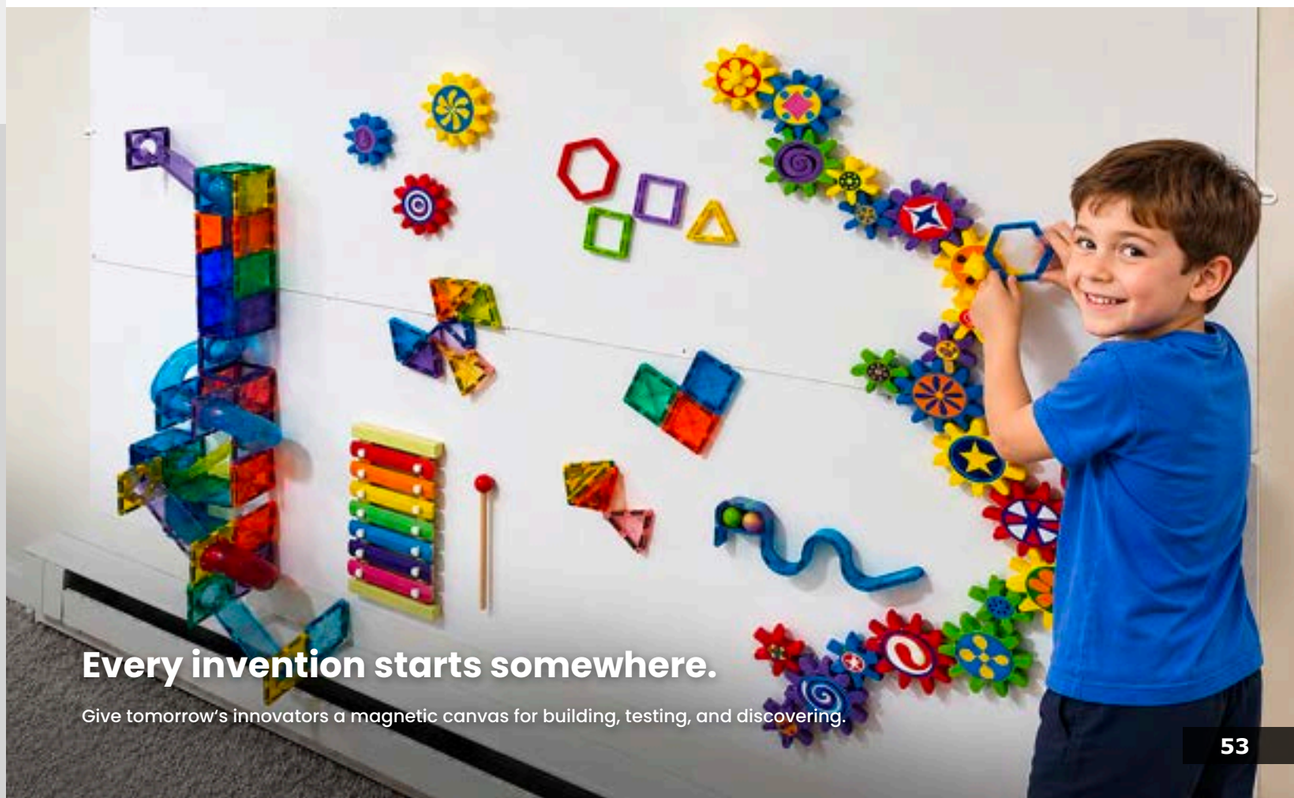
"I absolutely love, love, love it. It's already helping me stay organized and my granddaughters work on their alphabet and word crafting. When researching similar products you blew my mind with your price. Thanks for such a great product."

- Marcia R. of Chapel Hill, NC



A life well traveled.

From memories made to adventures ahead, MagBoard® helps you showcase the life you've lived.



Every invention starts somewhere.

Give tomorrow's innovators a magnetic canvas for building, testing, and discovering.

MOD SHELVING®

Custom Fitted Shelving System

The MOD Shelving® system is a modern and versatile wall-mounted shelving system that can be custom-fitted to your space. Use it in your family room as an entertainment center, in your garage to organize your gear, or even in your kitchen to arrange your pantry. MOD Shelving® is beautiful enough for living spaces, and yet strong enough for utility spaces. All components are constructed of heavy gauge steel with a high polish chrome finish for a beautiful appearance. Shelves are your choice of 3/16" thick tempered glass which is 14" deep or 3/4" thick wood planks which are 12" deep – all of which are fully supported by two horizontal steel cross bars. Don't let the good looks fool you, MOD Shelving® is strong and load rated to hold 200 lbs per every 48" width of shelf, evenly distributed.

The system mounts onto any wall, and can be made free standing or as floor/ceiling mount by special order. Shelf spacing is height adjustable every 2". The system ships complete with all mounting hardware included - just fasten it to your wall. The best part about MOD Shelving® is that it's customizable to your space – you decide the height, width and number of shelves – and we make it and ship it to you within 5 business days! Samples are available at your request.
Looks great, works even better®.

Advantages

- *Custom Fitted to your wall space: We'll make your MOD Shelving® to whatever size fits your space.*
- *200 lbs load rating every 48" width of shelf.*
- *Shelving height can be anything you need, starting at 12" height.*
- *Shelving width can be anything you need, starting at 24" width.*
- *Best price breaks are when width is in whole foot increments, such as 2'W, 3'W, 4'W, 5'W, etc. However we can make any width you need - even fractions of an inch.*
- *Spacing of shelves is adjustable every 2": no tools needed to adjust.*
- *Each shelf is fully supported by two horizontal chrome plated steel cross bars.*
- *Your choice of Wood Shelves or Glass Shelves: Glass is 3/16" thick tempered with polished edges, 14" deep. Wood Shelves are 3/4" thick MDF planks finished in Black or White LPM, 12" deep.*
- *All components are high polish chrome plated.*
- *Powder coated colors available by special order.*
- *Vertical slotted rails (aka "Standards") are only required every 48" along shelving width.*

For pricing, please provide the following information:

1 Height
any height from 12" & up

2 Width
any width from 24" & up
best pricing is in whole foot increments, such as 2'W, 3'W, 4'W, 5'W, etc

3 Shelf Material
Black or White Wood Shelves
Tempered Glass

4 Number of Shelves
depth of wood shelves is 12"
depth of glass shelves is 14"

Testimonials

"I love my shelving! It looks amazing and it was pretty easy to put up in my laundry room."

- Lisa G. of Fort Worth, TX

"We used the MOD Shelving in our new model home. It's been getting great feedback and exposure and my boss was impressed by the value. Thanks and I hope to be ordering more from you soon."

- Larry B. of Rock Hill, SC

"My airplane shelves are installed and I am really pleased as the shelves are just right for this collection. Thank you."

- Ian G. of Scarsdale, NY

WALL ORGANIZERS®

Versatile Garage Organization System

Our Wall Mounted Organizers are great to remove the clutter from any space. We offer a multitude of organizers for hanging just about everything you may have lying around – from garden hoses and ladders to bikes and skis. Each Organizer is crafted from strong MIG welded steel and then powder coated tough for a durable finish. These Organizers are built tough to withstand the extreme heat, cold, and humidity of a rugged work environment. Included hardware makes installation easy – just screw into wall and you are ready to go. Easily attach to wood studs, drywall over wood studs, or masonry.
No maintenance required. **Looks great, works even better®.**

CORNER PROTECTOR MX®

Preferred by professionals.

From global hotel chains to high-end commercial spaces, our corner protection solutions are trusted where durability, style, and reputation matter most. Seen here at Westin Hotels, our sleek, stainless steel protectors deliver rugged performance with refined design—ensuring your space looks flawless, no matter the traffic.

Corner armor.

Corner Protector MX® delivers heavy-duty protection that stands up to impact while adding a professional finish. Perfect for warehouses, commercial spaces, and modern interiors, it's the smart way to guard vulnerable corners. Easy to install. Built to last.

Discreet by design.

A low-profile solution that guards walls against carts, foot traffic, and everyday wear—without sacrificing style.

Corner Protector MX®

Stainless Steel & Aluminum Corner Protectors

Trim out your space with Corner Protector MX® from DiamondLife®. Corner Protector MX® features heavy duty all metal construction. Say goodbye to unsightly dings, scratches, and impact damage to wall corners – Corner Protector MX® provides a professional solution to a nagging problem. Used for years in commercial applications such as hospitals, airports, restaurants, and others. We make many sizes, colors, and finish options to suit any aesthetic requirement.

Installing Corner Protector MX® has tremendous "bang for the buck" and is an excellent way to add considerable visual punch to any space. Don't forget about the tough protection that only a metal corner protector can offer. Why pay similar prices for vinyl or plastic protectors when you can have real commercial grade metal? Corner Protector MX® can take a beating by machines, carts, tools, etc. and still look great. You'll smile every time you walk into the room.

Available in 4 ft, 8 ft and 10ft lengths, as well as custom lengths. Durable and rugged. For wall protection and decor.

Use for industry, factory, office, retail spaces, workshops, commercial spaces, garages, kitchens, and more. **Looks great, works even better®.**

Advantages

- *All Metal Construction: several metal options to get the look you want.*
- *Peel & Stick Installation: extra wide proprietary high flow bonding tape adheres moldings quickly. Installs in seconds.*
- *More Durable & Rugged than traditional vinyl protectors.*
- *Easy to Cut: cuts & drills like traditional trim. Use cutting blade designed for sheet metal.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, & most household chemicals.*
- *UV Stable & stain resistant.*
- *Use for Protection & Decor: protects walls & looks great.*
- *For Commercial, Institutional & Residential Use: factories, workshops, hotels, retail spaces, restaurants, architectural spaces, garages, & more.*
- *Real Commercial Grade Diamond Plate: not the imitation stamped metal that others use.*

Mounting

Plain Back

Plain Back is recommended for best and most durable installation. Use a construction adhesive to attach to the wall. We offer Liquid Nails® Polyurethane Formulation which is best for metal to drywall bonding.

Screw

Add screw holes for the most durable installation. Mounting with screws creates a mechanical lock between the wall and corner protector. When combined with a construction adhesive, this is the best installation possible.

Testimonials

"GREAT! Gorgeous products - our space turned out amazing thanks to your stuff! I would recommend DiamondLife to anyone."

- Audi Trixx and Tint of Dumas, TX

"Thanks Diamondlifegear for making Our Dream Garage a reality. Excellent product and very professional company to do business with!"

- Joey L. Covington, LA

BASE MOLDING MX®

Elevated protection.

Protect your walls from bumps and scrapes without sacrificing design.
Base Molding MX® brings form and function to modern spaces.

BASE MOLDING MX®

Protect and beautify your walls with Base Molding MX®

All Base Molding MX® feature heavy duty solid metal construction. Preformed inside and outside corners eliminate miter cutting. Can also be installed onto curved walls - bendable down to 12” radius walls by omitting the kick. We make many sizes, colors, and finish options to suit any decor style.

Installing Base Molding MX® has tremendous “bang for the buck” and is hands down the best technique to add considerable visual punch to any space. Don’t forget about the tough protection that only a metal base molding can offer. Why pay similar prices for vinyl or wood moldings when you can have real commercial grade metal? Base Molding MX® can take a beating by mops, polishing machines, sweepers, etc. and still look great.

Our 4-3/4” size is the most popular since it matches traditional base molding size. However we can make any size you would like. Industry standard 1/4” kick covers gap between the wall and floor for a beautiful finished appearance. You’ll smile every time you walk into the space.

Available in 4’, 8’, and 10’ lengths as well as custom lengths. Check out all of the stunning metals and beautiful colors. Durable and rugged. For wall protection and decor. Use for industry, factory, office, retail spaces, workshops, commercial spaces, garages, kitchens, and more.
Looks great, works even better®.

Testimonials

“GREAT!!! Cut to order perfectly & packaged very well for shipping. The diamond plate Base Molding arrived with the protective coating which ensured that there were no scratches. Very smart! All our neighbors and friends love my new “Man Cave” - everyone loves the diamond plate back board and cabinet corners too.”

- Dave S. of Calimesa, CA

“Shipping was great packaged nicely...opened it up and installed right away. My garage is the talk in the neighborhood, at work, among friends... wow! And it was easy to install - was able to cut with metal shears...thanks again.”

- Brian S. of Indianapolis, IN

“I received my order of 4”H x 8’L of aluminum cove base, plus inside and outside corners. They arrived when they were supposed to, and in good condition. The installation was as easy as the video showed And we passed the health inspection, with flying colors. Thanks for the great product, at a great price.”

MAXTILE F1

Metal Wall Tile for Wainscoting & Floors

MaxTile® is the only wall/floor tile on the planet made from real commercial grade aluminum diamond plate. Create a breathtaking wainscoting that would make any Formula 1 Race Team jealous. MaxTile® is an all aluminum tile which is tougher and more durable than any ceramic, clay, or porcelain tile on the market. Perfect for shop, trailer, garage, store, & more.

Turn your space into the ultimate show room. An assortment of colors allows endless possibilities to custom design your own wall/floor. MaxTile® is made with real commercial grade aluminum diamond plate found on the big rigs and NASCAR® - not imitation stamped metal used by others. All aluminum construction means MaxTile® will not rust rot, corrode, or degrade.

MaxTile® also works great as a floor tile. The anti-skid commercial grade tread surface is designed to handle heavy rolling loads and is anti-slip. MaxTile® is extra tough to handle vehicle traffic areas. MaxTile® is barefoot friendly – you won't feel any sharp edges or corners. Cut tiles with a jigsaw, circular saw, or band saw and use a cutting blade designed for sheet metal with fine teeth. Unlike paint and epoxy floors, there are no glues, no toxic fumes, and no mess to worry about. MaxTile® is resistant to oil, grease, petroleum products, antifreeze, and most household chemicals. No maintenance required.
To clean, just mop off.

For Commercial, Institutional, and Residential use. For industry, retail spaces, garages, and more. **Looks great, works even better®.**

Advantages

- *Heavy Duty: all metal construction.*
- *Self-Adhering or Install with Construction Adhesive: versatile installation options to suit installer.*
- *Tougher & more durable: than any ceramic, clay or porcelain tile.*
- *Easy to cut tile: Tiles can be cut using saw along with cutting blade designed for sheet metal.*
- *Easy to Clean: just wipe off.*
- *Commercial, Institutional & Residential Use: auto dealerships, factories, workshops, retail spaces, restaurants, architectural spaces, garages & more.*
- *Real Commercial Grade Diamond Plate: not the imitation stamped metal that others use.*

Mounting

Choose MaxTile TX® for installing with construction adhesive. Liquid Nails Polyurethane Formulation recommended for installing onto dry wall. This method recommended for commercial installations.

Choose MaxTile F1® for easy self-adhering convenience: high-flow bonding adhesive adheres to most indoor surfaces

Testimonials

"I usually don't take time to respond to companies about on line orders, but I'll make an exception in your case. This is the second order I have placed with your company and I just want you to know how exceptional I think your company is. Your pricing is excellent, as are your products. My 4' X 4' diamond plate arrived packed in a double box in perfect condition and looks great. It seems so hard these days to find companies that I feel do an excellent job, but yours is definitely an exception to that and I just wanted you to know. Keep up the great work."

- Maili B. Kew of Gardens, NY

"We love the MaxTile F1 we ordered. My 10 year old son wanted to decorate his room w/diamond plate, to give it a real garage/workshop feel. We hope to see more products that would fit into this category. We will definitely be a returning customer in the future. Thanks for the great service!"

- Alberto O. of Cedarhurst, NY

"Your customer service was excellent. I very much appreciate the fact that, although my order was small in nature, it was handled with importance and accuracy. The MaxTile is wonderful."

- Daniel M. of Nicholasville, KY

"5 stars!!!! This was the first time I have been able to use your products. I specified it for a wainscoting application in a commercial building. I must say the website was easy to use, ordering, delivery & installation went off without a hitch. My customer is happy. I will use your products whenever the application applies. Keep up the great work!"

- Nina M. of New York, NY

"Everyone who has seen the panels installed have all said the same thing: WOW!! Great job, on time delivery, exactly as ordered, highly recommended!! In short, LOVE IT!! Thanks."

- Alberto O. of Cedarhurst, NY

TRAILER STONEGUARD MX®

Trailer armor.

Built to take the hits. Defend against road debris while giving your trailer a polished look.

Goes on easy. Holds up hard.

Includes pop-rivets for a quick, no-fuss install. Just line it up and lock it down.

TRAILER STONEGUARD MX®

Protect your trailer or camper from ugly scratches and dings.

Protect your trailer with our stunning StoneGuard MX®. Crafted from real 17GA (0.045”tk) Commercial Grade Aluminum Diamond Plate, StoneGuard MX® is available in any size you need up to 4’x10’. Beautiful, high-polished, chrome-like shine and anodized colors will turn your trailer into a stunning machine.

Trailer StoneGuard MX® is flexible so it’s easy to flex around curves and bends. It will not peel, flake, or corrode and stands up to heavy duty abuse. Easy to cut, drill, and form around radius corners by hand, etc. Diamond Plate is also known around the world as tread plate and checker plate. **Looks great, works even better®.**

Advantages

- *Provides Excellent Protection: Adds tremendous visual appeal to your trailer while providing extreme protection to damage-prone area of the trailer.*
- *Heavy Duty: Made from real 17GA (0.045” tk) Commercial Grade Aluminum Diamond Plate. Others use 22GA (0.025” tk) imitation stamped pot metal.*
- *Flexible: Easy to form by hand around radius corners.*
- *Anodized Colors: 4 gorgeous colors to make your trailer look amazing.*
- *Easy to Clean: just wipe off.*
- *Chemical Resistant: resistant to oil, grease, petroleum products, antifreeze, & most household chemicals.*
- *UV Stable & stain resistant.*
- *No Assembly Required: comes ready to be mounted.*
- *Mounting hardware not included.*
- *Real Commercial Grade Diamond Plate: not the imitation stamped metal.*

Testimonials

“I think you guys are awesome. The price was great the shipping was prompt and the product was exactly what I was hoping it was. I thought maybe when I got it, it would be ultra thin because it was so inexpensive but it was perfect. I am a trailer dealer and I could not beat your price on aluminum diamond plate!!!? Thanks and keep up the good work.”

- Amie L. of Reno, NV

“I just finished my project today! I used it to dress up a used enclosed trailer I bought. The trailers bottom 4 or 5 inches was corroded and ugly. Now my trailer looks really nice. I was very impressed with your product. It was easy to cut, bend and work with. But most of all it looks awesome. I would rate your product and organization a 6 out of 5 if that is allowed.”

- Michael S. of Grafton, WI

“I would rate the product a 5. Shipping and overall product was great. We bought a used 2005 Weekender Travel Trailer and it needed some cosmetic help on the outside to make it look better and the Diamond Plating really helped.”

- Selena T. of West Covina, CA

“I wanted to let you know that I received and installed the Trailer Stone Guard MX and it looks great! I’ve recommended your products to several friends and to anyone that asks where I bought the stone guard. Thanks again.”

- Ray L. of Thunder Bay, ON

“Thanks for a lovely product. I was rehabbing a horse trailer. The stone guard I removed was slightly thicker than aluminum foil. Your product not only protects but gives a much more professional appearance.”

- Susan V. of Mentone, AL

“We would rate our recent purchase from your company as a full “5”. The diamond plate stone guard was competitively priced and we received it very quickly. It fit perfectly and the installation instructions were clear, concise and easy to follow. Best of all, the new stone guard made our rusty 1988 W-W stock trailer look presentable again. Thanks again for smooth transaction and we’ll recommend your company to our friends.”

- Kim H. of Lewistown, MT

Metal by the Piece

Polished protection.

Industrial-grade toughness meets sleek sophistication with genuine aluminum diamond plate.
Rugged, refined, and ready for anything

Performance starts here.

Our Diamond Plate flooring delivers championship performance with showroom-worthy style.

Built for the food business.

Whether you're operating a restaurant, commissary, catering kitchen, or food production facility, our Diamond Plate delivers commercial-grade protection that stands up to the toughest environments. Solid aluminum construction resists corrosion, cleans easily, and is built for years of dependable service.

Retail redefined.

Style meets strength—diamond plate protection with a bold, modern edge.

Metal by the Piece

Metal by the Piece

Get your metal sheets - Aluminum Diamond Plate, Stainless Steel Diamond Plate, Steel Diamond Plate, Aluminum Anodized, and Colored Aluminum - available in a variety of thicknesses and sizes.

This is real commercial grade Diamond Plate - not the imitation stamped metal that others use. Available up to 0.250" thick. Easy to cut, drill, form, etc. Diamond Plate is also known around the world as tread plate, checker plate, and floor plate.

Our colored aluminum offers extreme durability in outdoor exposure as well as indoor because of our high-quality paint system. Colored aluminum sheet finishes are uniquely designed in that they offer a hard, abrasive resistant coating, yet allow the flexibility for extensive forming and fabricating.

For Commercial, Institutional, and Residential use.
For industry, retail spaces, garages, and more.
Looks great, works even better®.

FAQ

What metal thickness should I use?

Determining the appropriate material thickness for a given loading condition is an engineering question that we cannot answer. Every material, no matter how thick, will have some deflection when loaded, whether that deflection amount is imperceptible or not. The amount of deflection is dependent on the material thickness, material's physical properties and the largest unsupported span. There may be some online calculator tools which attempt to predict this amount of deflection. Generally speaking, 0.045" and 0.063" are used as "veneers" and 0.125" and 0.250" are used in structural applications.

Installation

1. For best cutting results, use saw blades designed to cut sheet metal 1/16"tk. A jig saw, rotary saw, or band saw can be used.
2. Drill holes using drill bits designed to cut aluminum. For best results, mark hole locations with a punch to avoid drill walk.
3. Always wear proper eye, body, & hand protection when working with metal sheet.

Heavy-duty aluminum flooring that won't back down from nonstop traffic, rolling carts, moisture, or cold temperatures. Perfect for commercial kitchens and walk-in freezers.

Testimonials

"I want to congratulate the entire team at DiamondLife Gear on running a great business. I found the website easy to navigate with accurate information regarding the product (description, dimensions, etc.) and honest timelines concerning manufacturing and shipment of the product. There was excellent communication from the service department throughout the entire process. Emails were sent with confirmation of the order, receipt of purchase, shipping confirmation, and final follow up. When the product arrived it was packaged in a way to minimize the possibility of any shipping damage. My piece arrived in excellent condition and was the exact specs that were listed on the website when I ordered. Great product. The piece I ordered was used to complete a handicap ramp that I built for my grandmother. It made an excellent transition piece from the end of the ramp to the ground. She is easily able to navigate her way on and off the ramp in both her wheelchair and using her walker. Your product has exceeded my expectations! Thank you for selling a great product and providing excellent customer service!"

- Brian F. of Lexington, KY

RESERVE
CUSTOM FITTED WINE RACK

RESERVE
CUSTOM FITTED WINE RACK

Perhaps second to the art of wine, is the art of the bottle.

Dare we say the art of the wine rack follows just behind?

Whether storing a few bottles or several thousands,

RESERVE™ is designed to showcase the bottle for easy viewing.

Today, we don't just cellar wine, we celebrate it.

Design

RESERVE® can hold bottles in 7 different "bottle positions"
for endless design possibilities

A RESERVE® wine rack is comprised of many rows of bottles.
Bottles in each row can be in a different "bottle position"

Placing different "bottle positions" on different rows can
make your wine rack more personalized and more functional

Installation

"Standards" (vertical slotted metal rails) are screwed into the wall;
or if wall mounting is not possible can be made optionally as Floor-Ceiling Mount

"Brackets" are thumb screwed onto the "Standards" (no tools required)

Horizontal "Cross Bars" magnetically snap onto the "Brackets" (no tools required)

Place your bottles onto the cross bars

Note: different bottle positions use different "Brackets" and horizontal "Cross Bars"

RESERVE

Bottle as Art

Testimonials

"The wine rack is magnificent! I love it so much with the 1 bottle deep label view - it is even better than I thought it would be. One of the coolest things about the system is the brilliance of the magnetic attachment of the crossbars to their brackets. Love it. We will definitely use this in other homes and models."

- Thomas D., Director of Business Development and Residential Design of Melbourne, FL

"We are very happy with our wine racking system! My husband and I built it very quickly and with a minimum amount of cursing and swearing! We are in the process of trying to sell our home and hopefully build another in the next couple of years. If this happens I would definitely put your racking system in again! Thanks."

- Michelle H. of Mooretown, ON

"I'm very satisfied with my wine rack. It is well made, well designed and looks terrific. Friends and neighbors have all made favorable comments. I would recommend this product to anyone who is looking for a great way to store and display their wines. This is not the type of product you will find in any of your local stores."

- Richard V. of Bradenton, FL

"We love our new wine cellar. We hosted a charity event soon after - it was the talk of the event. Thank you for all of your attention to detail."

- Sara G. of Napa, CA

"I love the chrome finish. I wasn't sure about it but when you sent me the samples, it really convinced me. We only have small wine rack in our dining room area, but it looks great and we really like it."

- Kelly P. of Naperville, IL

"Your service, communication and products are first rate. It's easy to see you have pride in your products. Our installation went smoothly with no surprises. We're thinking about putting another rack up soon!" "Thank you.

- Gregory H. of San Francisco, CA
